

CASE STUDY

SUCCESS STORY – FCC CYCLONES FOR REFINERY UPGRADE PROJECT

“Emtrol-Buell has been designing and manufacturing fluid-bed cyclones for refineries and petrochemical plants worldwide for decades, and our experience in this area is unequalled.”

— CECO Environmental Team.

THE DETAILS

- Part of a \$780m refinery upgrade project to reduce emissions and improve fuel quality
- Order for regenerator cyclone system and reactor cyclone parts
- Emtrol-Buell scope will improve the operation of the FCCU
- Emtrol-Buell provided eight pairs of high-efficiency regenerator cyclones to reduce catalyst losses to the downstream equipment
- We provided expedited delivery (3 mo. vs. typical 10 mo.) to meet refinery installation schedule
